

BIMUKTI MOZZUMDAR

New York, NY | (934) 218-9593 | bimukti.mozzumdar56@myhunter.cuny.edu

Portfolio: <https://b-mozz.github.io/>

EDUCATION

CUNY Hunter College

Expected December 2027

Bachelor of Arts in Computer Science, New York, NY

GPA: 3.93/4.0

Honors: Thomas Hunter Honors Program, Dean's List (Spring 2024, Fall 2024)

Relevant Coursework: Data Structures & Algorithms, Software Analysis & Design, Computer Architecture

TECHNICAL SKILLS

Languages: Go, JavaScript, Python, C++, PHP, HTML5, CSS3

Frameworks: Docker, Node.js, Express.js, Streamlit, Pandas, Scikit-learn, Matplotlib, Folium

Tools: Git, MySQL, RESTful APIs, VS Code, Heroku, Google Cloud Platform, AWS S3

WORK EXPERIENCE

Software Engineering Intern

Summer 2025

Unadat, New York, NY

- Developing and maintaining web applications using PHP, JavaScript, and MySQL
- Building automated data extraction systems for PDF/email processing, reducing data entry time by 90%
- Implementing notification system features and RESTful APIs with database integration

IT Technician

October 2024 – Present

CUNY Hunter College Social Science Computing Lab, New York, NY

- Supporting 300+ students and faculty with research tools including Stata, SPSS, Excel
- Maintaining lab equipment and troubleshooting software applications with 100% accuracy

Curriculum Designer & Mentor

January – June 2023

The Dynamic Ninja, Bangladesh

- Designed calculus course for high-achieving students preparing for engineering entrance exams

PROJECTS

Cloud File Manager

Technologies: Go, JavaScript, Docker, Storage Systems

GitHub: <https://github.com/b-mozz/cloud-filemanager> | Status: Latest Project

- Go web application exploring file storage patterns and chunking techniques
- Implemented dual storage system with local filesystem and in-memory caching
- Dockerized for deployment with planned AWS S3 integration

Cryptocurrency Price Tracker

Technologies: Node.js, Express.js, JavaScript, RESTful APIs

GitHub: <https://github.com/b-mozz/crypto-alert-web.git> | App: <https://b-mozz-crypto-alerts-27e5033dde38.herokuapp.com/>

- Real-time cryptocurrency alerts and portfolio tracking system deployed on Heroku
- Integrated multiple crypto APIs for comprehensive market analysis with responsive design

NYC Neighborhoods Visualization

Technologies: Python, Streamlit, Pandas, Folium, Matplotlib

GitHub: <https://github.com/b-mozz/zip-code-explorer.git> | Demo: <https://zip-code-explorer-nyc-b88c78013d7b.herokuapp.com/>

- Interactive web application analyzing NYC zip codes with data visualization and map features
