

Bimukti Mozzumdar

New York, NY | +1 (934)218-9593 | bimukti.mozzumdar56@myhunter.cuny.edu | <https://b-mozz.github.io/>

EDUCATION

CUNY Hunter College

Bachelor's in Computer Science (GPA: 3.93/4.0)

New York, NY

Expected Dec 2027

- **Honors and Awards:** Thomas Hunter Honors Program, Dean's List (Spring 2024, Fall 2024)
- **Related Coursework:** Introduction to Computer Science, Software Analysis and Design 1,2 & 3, Computer Architecture 1 & 2, Discrete Structure, Calculus I & II, Matrix Algebra

TECHNICAL SKILLS

Programming Languages: C/C++, Python, PHP, JS, HTML/CSS

Libraries & Frameworks: Streamlit, Pandas, Matplotlib, Scikit-learn, Folium

Developer Tools: Git, VS Code, Google Cloud Platform

Data Analysis: Excel, Google Sheets, Statistical Analysis (SPSS, Stata)

Languages: Fluent (English, Bengali), Conversational (Hindi, Urdu)

WORK EXPERIENCE

Software Engineering Intern

Unadat, New York

[June 2025 – Present]

- Developing and implementing notification system features for the platform
- Developed automated data extraction system using PHP and JavaScript to parse information from PDFs and emails, reducing data entry time by 90%.
- Built automated system to integrate extracted data into MySQL database with maintained data integrity across multiple tables

IT Technician – Social Science Computing Lab

CUNY Hunter College, New York

[October 2024 – May 2025]

- Maintain and troubleshoot lab equipment and software applications
- Support 300+ students and faculty with educational technology, including data analysis software such as Excel, Google Sheets, Stata, and SPSS, as well as research tools
- Manage desk inquiries, updating web content using HTML, ensuring 100% accuracy.

Interpreter Poll Worker

New York City

[October 2024 – Present]

- Registered to assist voters with Bengali language interpretation services during elections
- Prepared to facilitate communication for Bengali-speaking voters, ensuring seamless voting processes

PROJECTS

Exploring NYC Neighborhoods - [GitHub](#) / [Live Demo](#) / Language: Python, HTML

- Developed an interactive web application to analyze and visualize NYC neighborhoods by ZIP codes, using Python libraries such as **Streamlit**, **folium**, and **matplotlib**
- Processed and **integrated** datasets of 10,000+ entries using **pandas**
- Utilized the **scikit-learn** Python library to map longitude and latitude data to ZIP codes
- **Deployed** the web application on **Streamlit Cloud**, enabling real-time user interaction and map visualizations

Personal Dashboard Web App | - [GitHub Gist](#) / [Live Demo](#) / Language: PHP, HTML, JS, REST APIs

- Built responsive single-file application integrating 4+ APIs (News, Crypto) with auto-refresh functionality and secure deployment
- PHP-JavaScript integration in single-file architecture
